

Sexual Assault / Rape

Sexual assault is any form of unwanted sexual contact obtained without consent or obtained using force, threat of force, intimidation, or coercion. The University established the Sexual Assault Prevention and Awareness Center (SAPAC) to meet growing concerns of increasing incidents on college campuses. SAPAC provides advocacy and crisis intervention for sexual assault, dating/ domestic violence, sexual harassment, and stalking, and provides education and prevention programs to the University community on these issues. Services are available to any university student, staff, and significant others. Services include a 24-hour crisis line, crisis intervention and follow-up; and advocacy with the university, legal, and medical systems.
